

## Honeymoon

**Pig Destroyer**

I always thought it fitting the way they chose the next victim  
with a  
bouquet of dying flowers and how happy they appeared as they ducked into the  
smiling hearse  
but I quite fancied them losing their lifeblood in a hotel room  
somewhere  
with a lot of palm trees because eventually they will see that  
our  
weaknesses are all  
it takes to make the most divine of flowers wither.
