

## Jupiter's Eye

## Pig Destroyer

Doomed lovers in a free fall  
Together till they crash to the ground  
I long for my sweet disappearer  
As this avalanche of night  
Slides down  
Black haired angel by the bonfire  
With alien eyes divine they flicker a moment  
In the flames then follow the smoke  
Into the sky  
It's like losing a limb  
This agonizing goodbye  
My dreams of her are violent  
All swirled in red  
Like the storm in Jupiter's eye  
All swirled in red  
Like the storm in Jupiter's eye
