

This is the good for my belief, this is the gun for my relief
This is the god
This is the gun
One is for killing one is for fun... fun... fun!

Pow pow! Easy come pow pow pow easy go
Pow pow! Easy come pow pow pow easy go

This is the good for my belief, this is the gun for my relief
This is the god
This is the gun
One is for killing one is for fun

I am the town that loves to lie, that shame passed by
This is the city where the widows weep, the only answer to my conceit
My god is good my god is right he'll give me what I need tonight
My god is good my god is right he'll give me what I need tonight
You are the one I recognise but in your warmth I could realize
I am the sum of all I despise but I soon start to feel
Alive!

Yeah yeah yeah yeah yeah yeah!
You are the good for my belief, this is the bullet for my relief
This is the god
This is the gun
One is for killing one is for fun

My god is good my god is right he'll give me what I need tonight
Here is the good in my belief, this is the bullet that's my relief
This is the god
This is the gun
One is for killing one is for fun
He is made for my belief here is the bullet for my relief
This is the god
This is the gun
One is for killing one is for fun
Yeah yeah yeah yeah yeah yeah!

I could kill someone tonight, slip and slide to the hurt and high
Run around with a
Switchblade
Come with you in the morning light

My god is good my god is right he'll give me what I need tonight
My god is good my god is right he'll give me what I need tonight
This finger itches for the spike and spoon
In this city where you weep
Into the womb that is your only tomb!
My god is good my god is right he'll give me what I need tonight
My god is good my god is right he'll give me what I need tonight
My god is good my god is right he'll give me what I need tonight
My god is good my god is right he'll give me what I need
Tonight!
