

## Broken English

PIG

I could have got through anytime  
Cold lonely puritan  
What are you fighting for  
It's not my security  
It's just an old war  
Not even a cold war  
Don't say it in Russian  
Don't say it in German  
Say it in broken English  
say it in...

Lose your father your husband  
Your mother your children  
What are you fighting for  
It's not my reality  
It's just an old war  
Not even a cold war  
Don't say it in Russian  
Don't say it in German  
Say it in broken English
