

Kiss King (high High High)

Pigface

In bed I smile
Who's scared of dust
Whose ways had tempted you afar
The twist in this
Was fear alive
It took the stars to show me

I am for the kiss king
Did I come up for sky
Like a rush that never fades
High
(high high high)
High

And at the window
Late at night
I turned away
To run with light
I twisted this
To feel alive
Till bigger ashes
Shook me

I am for the kiss king
Did I come up for sky
Like a rush that never fades
High
(high high high)
High
(high high high)
High
(high high high)
High

I would never
Pick this pain apart
Do you want to?
I want to
I would never
Pick this pain apart
Do you want to?

I am for the kiss king
Did I come up for sky
(kiss king touch me kiss king high high high)
I am for the kiss king
Did I come up for sky
Like a rush that never fades
High
(high high high)
(kiss king)

I am for the kiss king
I am for the kiss king
I am for the kiss king
I am for the kiss king
(high high high)

(high high high)
(high high high)

I wish that I could play with
The river ashes showed me
