

Hindsight

Pillar

I wanna be a transparency live my life so that you can see Elohim
No longer see a little boy in his teens getting by tryin' to fit in like an
OG
But looking back it doesn't make any sense to me how I could be 19 yet so na
ive
I never really thought about eternity I just did at the time what felt good
to me

Yesterday are just memories in my head
He paid the way and delivered me of my debt
My hindsight's 20/20 now so it's said
Can you believe it

After the day that I graduated that's when it set in being faded and inebria
ted
Dealing with the pains of my mom and dad's divorce
But that was '81 now I'm showing no remorse
And all those people that I used to know then
I've changed my ways and I just live for Him
At 4:20 every day you wanted me to blaze with you
But at the same time every day I'm just gonna pray for you

Yesterday are just memories in my head
He paid the way and delivered me of my debt
My hindsight's 20/20 now so it's said
Can you believe it

Yesterday are just memories in my head
He paid the way and delivered me of my debt
My hindsight's 20/20 now so it's said

I changed my ways I'm never goin' back again
I'm never goin' back again
I'm never goin' back again
I'm never goin' back again

Can you believe it

Yesterday are just memories in my head
He paid the way and delivered me of my debt
My hindsight's 20/20 now so it's said
Can you believe it

Yesterday are just memories in my head
He paid the way and delivered me of my debt
My hindsight's 20/20 now so it's said
Can you believe it

Yesterday are just memories in my head
He paid the way and delivered me of my debt
My hindsight's 20/20 now so it's said
Can you believe it

Yesterday are just memories in my head
He paid the way and delivered me of my debt
My hindsight's 20/20 now so it's said
