

# Resolution

## Pillar

There's a whole world going on outside  
But you've been stuck inside your mind  
Do you let fear motivate you  
Or does it complicate you  
Leaving you a step behind

You're left with no one standing by your side  
You try to justify your lies  
It starts to agitate you  
Don't let this aggravate you  
There's no need to apologize

We all need resolution  
You can find your way through  
There's only one solution  
You've gotta find what you're looking for

You've been hiding in that weak disguise  
Hoping no one sees your foolish eyes  
Don't let that intimidate you  
Don't let it separate you  
From all the ones who question why

Just keep on reaching for the sky  
And you'll find out it's not that high  
When you let love elevate you  
When you let it gravitate you  
You're in for the ride of your life

We all need resolution  
You can find your way through  
There's only one solution  
You've gotta find what you're looking for

Don't let the moment pass you  
Don't let distractions blind you  
Don't let question stop you  
Don't let the answers miss you
