

Will You Be There

Pillar

Tell me when it's over
Never thought we'd be here
Moments passing by, I'm losing you
So much that I never knew
I couldn't bring it out of you
Caught up in the history, it won't let you go
Go...

When the sun comes up tomorrow
Will you be there?
Will you be there?
If I fade away tomorrow
Will you be there?
Will you stay here?

Tell me it's not over
I can't see it anymore
All the love is passing by, I'm losing you
Of all the things I ever said
Never meant so much regret
Hard to see the future if the past is in the way
Can we find a way?

When the sun comes up tomorrow
Will you be there?
Will you be there?
If I fade away tomorrow
Will you be there?
Will you stay here?

There is just one thing about you
It's I just can't live without you
So I'll just keep holding on. (2x)

When the sun comes up tomorrow
Will you be there?
Will you be there?

When the sun comes up tomorrow
Will you be there?
Will you be there?
If I fade away tomorrow
Will you be there?
Will you stay here?
