

# Will You Be There

Pillar

Tell me when it's over  
Never thought we'd be here  
Moments passing by, I'm losing you  
So much that I never knew  
I couldn't bring it out of you  
Caught up in the history, it won't let you go  
Go...

When the sun comes up tomorrow  
Will you be there?  
Will you be there?  
If I fade away tomorrow  
Will you be there?  
Will you stay here?

Tell me it's not over  
I can't see it anymore  
All the love is passing by, I'm losing you  
Of all the things I ever said  
Never meant so much regret  
Hard to see the future if the past is in the way  
Can we find a way?

When the sun comes up tomorrow  
Will you be there?  
Will you be there?  
If I fade away tomorrow  
Will you be there?  
Will you stay here?

There is just one thing about you  
It's I just can't live without you  
So I'll just keep holding on. (2x)

When the sun comes up tomorrow  
Will you be there?  
Will you be there?

When the sun comes up tomorrow  
Will you be there?  
Will you be there?  
If I fade away tomorrow  
Will you be there?  
Will you stay here?
