

## Call Me Round

Pilot

Call me round, call me round  
Don't be afraid, why don't you call  
Call me round, call me round  
Don't be afraid just call me round

If any time you feel alone  
Don't you be sad, you can pick up the phone  
And I'll be home

I could make you mine tomorrow  
Let me know you care  
Tell me what I want to hear  
And I'll be there, yes I'll be there

Call me round, call me round  
Don't be afraid just call me round

I know that you're the only one  
I know you should be here to carry on  
Carry on

And I'll be there so call me round  
And I'll be there so call me round
