Call Me Round

Call me round, call me round Don't be afraid, why don't you call Call me round, call me round Don't be afraid just call me round

If any time you feel alone Don't you be sad, you can pick up the phone And I'll be home

I could make you mine tomorrow Let me know you care Tell me what I want to hear And I'll be there, yes I'll be there

Call me round, call me round Don't be afraid just call me round

I know that you're the only one I know you should be here to carry on Carry on

And I'll be there so call me round And I'll be there so call me round
