Your sentry-men fall behind Your sentry-men fall behind

You're wasting my time Like mini crosswords do You're breaking the line You just tripped over

(every time) Your sentry-men fall behind (every time) Your sentry-men fall behind

Into the sunspots we vanish away

You're falling in time Like penny dreadfuls do Tripped over the line That's two for flinching

I'd pay anyone twenty bucks just to do that Cause everything in this place is freezing except for the sound. It's just a thing that I carry around.

Into the sunspots we vanish away

Saw your face in the mirror said three times Saw your face in the mirror said three times
