

## Without Me

Pinhead Gunpowder

People come and go there's a lot of  
Places believe me I know worth  
Going to worth leaving from but  
Please take me when you leave or  
Believe in me and stay

If I said I couldn't go on living  
Without you now that would be a lie  
But if you knew how it looks inside  
My head my house is really bad enough  
But this is really bad it's pretty bleak  
And I'll be very sad at least if  
You decide to leave  
Without me

Cuz this only happens once in a great  
While five or ten times in a lifetime  
Maybe less I don't know but I don't  
Want to blow my chance this time around

I shouldn't be so worried I mean we  
Just met but just like the first time  
You saw me you said "Now there's a guy  
Who never sticks around" I guess we  
Have that much in common and that's  
Why you hunted me down

Isn't that sweet?  
Please don't leave  
Without me
