

Everybody's somebody

Pink Cream 69

In the night it goes on and on
It beats in every piece of my heart
Yeah again it comes over me
and I know
Oh, my god, it'll tear me apart

Everyone's somebody
Everybody turns up now
Everyone's somebody
Everybody, somebody
Turn up now

Me and you, we are on the run
We're takin' all the action around
We are one melted by the sound
and I know
This melting trembles the ground

Everyone's somebody
Everybody turns up now
Everyone's somebody
Everybody, somebody
Turn up now
