

It's a world deep inside of me
Many places you will never see.
Always hide the secrets in my life,
It's something abandoned deep within my pride.

Somewhere out in the darkness stays a life
How many years you've liked to see

You know I'll be there with or without you
And be king for one more day.
Kept the dream alive and if we survive
Is the fullest prize to pay.
King for a day.

There were days I felt you on my skin
You keep on touching, but you found out that I'm alive
But I feel alone, there's a part of me that's just been hurt and
thrown.

I'll be gone when the morning comes
And there's nothing left to see

You know I'll be there with or without you
And be king for one more day.
Kept the dream alive and if we survive
Is the fullest prize to pay.

And maybe I'll still be king for a day.

Are we got with the morning comes a day.
When it's nothing left to say.

You know I'll be there with or without you
And be king for one more day.
Kept the dream alive and if we survive
Is the fullest prize to pay.
And maybe I'll still be king for one more day.

I'll be there with or without you.
I'll be there with or without you.
I'll be there, I'll bet there, I'll be there.
