

Don't remember when I came here
Was it in a dream?
All the thoughts that now surround me
Are not what they seem?
Is there anybody out there?
Who could know my face?
In this vision no decision

Shadow's of time
Cast away the darkness for my eyes
So I can fight the good fight
Shadow's of time
Seems that I've been lost a thousand years
And I will fight the good fight
Over shadow's of time

In the dark I search the answer
Twisting in my mind
Pessimism in your laughter
Makes you so unkind
Memories are waking in me
Guilty is my plea
In this vision no decision

Shadow's of time
Cast away the darkness for my eyes
So I can fight the good fight
Shadow's of time
Seems that I've been lost a thousand years
And I will fight the good fight
Over shadow's of time

So I face the final curtain
With this endless dream
In my vision no decision

Shadow's of time
Cast away the darkness for my eyes
So I can fight the good fight
Shadow's of time
Seems that I've been lost a thousand years
And I will fight the good fight
And I cant stop these
Shadow's of time
Break away from what I left behind
So I can fight the good fight
Shadow's of time
Take me through another thousand years
So I can fight the good fight
Over Shadow's of time
