Pink Cream 69

Your, brothers sisters are crying out to you
Take, time and listen what else can you do
Screaming for they're destiny
The future holds the key
Got to save they're dignity
Let's find a way find a way
Reach out and free your soul
You know that you've got to

Shout it out
Try to fuel the human race
Shout, shout it out
Turn your back and be disgraced
Shout it out
Give the people what they need
Shout, shout it out
Raise your hands and shout it out

Heal, all the blood shed
In this crazy dream
Save all the goodness
And there self esteem
Searching for there liberty
They could not foresee
Living in this poverty
Let's find a way find a way
Reach out and free your soul
You know that you've got to

Shout it out
Try to fuel the human race
Shout, shout it out
Turn your back and be disgraced
Shout it out
Give the people what they need
Shout, shout it out
Rise your hands and shout it out
Let it out, spit it out, and scream it out,

Listen can you hear them scream?
Fighting for their self-esteem
In a new society
Say goodbye to poverty

Shout it out
Try to fuel the human race
Shout, shout it out
Turn your back and be disgraced
Shout it out
Give the people what they need
Shout, shout it out
Roll the dice and shout it out
Let it out, spit it out, and scream it out
Shout it out
Let it out, spit it out, scream it out
You shout it out!
