

1. All this love, is all I am  
a ball is all I am  
I'm so new compared to you  
and I am very small
2. Warm glow, moon gloom  
always need a little more room  
waiting here seems like years  
never seen the light of day
3. All around I hear strange sounds  
come gurgling in my ear  
red glow light and darkened night  
I feel my dawn is near
4. Warm glow, moon gloom  
always need a little more room  
whisper low, here I go  
I will see the sunshine show
