

Embryo

Pink Floyd

1. All this love, is all I am
a ball is all I am
I'm so new compared to you
and I am very small
2. Warm glow, moon gloom
always need a little more room
waiting here seems like years
never seen the light of day
3. All around I hear strange sounds
come gurgling in my ear
red glow light and darkened night
I feel my dawn is near
4. Warm glow, moon gloom
always need a little more room
whisper low, here I go
I will see the sunshine show
