

Everywhere

Pink Martini

Everywhere I go I know
Everywhere I go will glow
The sleepy summer sky
The lovers passing by
All the cities too
Make me think of you

Everywhere I go I see
A world designed for you and me
I always realised with every new sunrise
That you are with me everywhere

I've never ever known a love that lasted
Beyond the thrill of a first kiss
This love of ours has utterly surpassed it
And now my bliss is this

Every time I'm far from home
I am never quite alone
Whenever we're apart
You're always in my heart
For you are with me everywhere

Every time I'm far from home
I am never quite alone
Whenever we're apart
You're always in my heart
For you are with me everywhere
