

Fairy Said

Pink Turns Blue

Close your eyes and I will lead the way
To a new life full of love
A world of hope and friends

I'll lead you through the darkness until day
The silver line horizon
The land of untouched nature

That's what the fairy said

Take my hands and I'll lead you out of cold
You'll feel your heart and soul
It's blinking with a smile

Hold on and the sun will shine again
And soon we will arrive
Full of faith and strength

That's what the fairy said

Your dreams will end and life will begin again
A time of things and change
It's full of trust inside

Arrive at dawn and love will be alarmed
It takes you in its arms
The magic song of love

That's what the fairy said
