

True Love (after All)

Pink Turns Blue

I was hoping I was dreaming to play an important part
Be the prince of your world
Always good
Behaved
Almost like a child

I was trying too hard
To mean something
To you
I was trying too hard
To find a place
In your life
I was trying too hard
To be a friend
That's all
I was trying too hard
To find true love
After all
True love

Faithful until death
Touched by your love
I was feeling divine
When I saw you smile
I could hug the world
When I was with you
I could climb a mountain
Any route

I was trying too hard
To mean something
To you
I was trying too hard
To find a place
In your life
I was trying too hard
To be a friend
That's all
I was trying too hard
To find true love
After all
True love

Was playing by the rules
To make it work
Was playing my role
I did my part
We've been through the lows
Were diving deep
We've been through it all
Sailing the seas

I was trying too hard
To mean something
To you
I was trying too hard
To find a place

In your life
I was trying too hard
To be a friend
That's all
I was trying too hard
To find true love
After all
True love
