

All I Know

Pipes And Pints

I read in the book of memories
I know that fate will decide
Where will go where will be
Undecided road in front of me
Blue eyes black mind misses J
Mind travels on the way
True desires fake business
Iron minded inside my head

Somethings burning deep inside
Something that I cant explain
It takes me over every time
When I stand in front of you
Life is tough! Life is rough!
You got to fight to make it through
If you wanna say what you think
You got to give everything!

Going on is all I know
My bloody knuckles say it all
From east to west
I've done my best
Going on is all I know

When you fall in love and don't know why
When you're shooting up and not feeling high
When you ask yourself what am I
Your reflection saying what am I
Who am I is the question why
What am I is the answer why
Going forward is all I know
Going on is all I know!
