

City By The Sea

Pipes And Pints

24-7 always alive this city's got action day and night
The summer nights are hot as hell and the city lights go
Jimmy fast and Jimmy D without a cause had an effect on me
Walking down an alley street shaky ground beneath my feet.

We remember the deadly fall
In our hearts we remember them all
The fire wings of liberty never lose a feather
And we love the city by the sea

99 the devil got loose 2001 all hell broke loose
Babylonian catastrophe shot down like
Mr. Law and order going by the book
A rage you took without a look
He told the east no mercy for you
Just a hard goodbye is what I got for you

We remember the deadly fall
In our hearts we remember them all
The fire wings of liberty never lose a feather
And we love the city by the sea

We remember the deadly fall
In our hearts we remember them all
The fire wings of liberty never lose a feather
And we love the city by the sea

City by the sea!
City by the sea!
City by the sea!
City by the sea!
