

Fight the Fight

Pipes And Pints

Fight the white supremacy!
Fight against worlds poverty!
Fight the rich tycoonity!
Fighting wars captivity!
Fight the famine far away!
Fight the cheap hostility!

Your battling down my motivation
Don't fucking drag me down no more
I'm sick of your cheap conversation
I can't take it anymore
Your framing thoughts are circled in
Try to open up within
Don't vote for propaganda war
Be open-minded then you'll score

Fight the fight!
Fight the fight!

Fighting wars captivity!
Fight the famine far away!
Fight the cheap hostility!
Fight against worlds poverty!
Fight the rich tycoonity!
Fighting this society!

September carnivals in town
Bloody war zone empty town
The twilight zone took over now
A soldiers like a dollar bill
Families can't say goodbye
Just letters with cheap sympathy
God's warriors killing themselves
And snipers on the window sills
