

Never Let You Down

Pipes And Pints

Here we are you and me
Singing songs and rolling free
Raise your drink
and lets go wild tonight

Raise your voice and sing with me
Scream and shout scream with me
Tonight's the night will never let you down
Here we are, here we go
Street life songs and ready to go
You know our tunes will never let you down

Here we are you and me
Singing songs and rolling free
Raise your drink
And let's go wild tonight

I rock with you
you rock with me
A new pack of words
you can sing with me
And you know will never let you down
Here we are in your town tonight
Circle pit singing and ready to fight
And you know will never let you down

Here we are you and me
Singing songs and rolling free
Raise your drink
And let's go wild tonight

The sound inside your head
to me punk rock is never dead
And you know will keep this sound alive
this soundtrack of your lives
Never let you down

Here we are you and me
Singing songs and rolling free
Raise your drink
And let's go wild tonight

Here we are you and me
Singing songs and rolling free
Raise your drink
And let's go wild tonight

(Never let you down)
(Never let you down)
(Never let you down)

Here we are you and me
Singing songs and rolling free
Raise your drink
And let's go wild tonight
