

# Where is My America

## Pipes And Pints

Pictures of America  
Seem to fade away!  
The youth is getting damaged  
By today's society!  
The hate is like a fireplug  
Inside of you and me!  
Where is my America  
Where's it gone today!

Obscurity and emptiness  
We had it all before  
Can't you find something else  
Besides the fucking war!  
Water ashes in the sky  
And people disappear beneath that sky!

Black gold dead gold  
Stealing drop by drop!  
The senate does not care  
Where the bombs are really dropped  
A life is born we take it all away  
By fucking war and political stupidity!  
Brainwashed by the TV everyday  
Don't believe in anything they say  
Reality is better enemy  
It's nothing but propaganda anyway!

Hey! Hey! Hey!  
What's it gonna be  
Hey! Hey! Hey!  
It's a mad society  
Hey! Hey! Hey!  
I'm a raging bull

If you wanna say what you think  
You got to give everything

You make the changes every other day!  
You and me  
The fighting man  
The working class  
Make those changes everyday  
You make the changes every other day!
