

Speak Of The Devil

Pirates of the Mississippi

Intro

You think there's someone else so today you're gonna leave
But I went out alone I can't help what you believe
You can't blame it all on me

Chorus:

Speak of the devil , he took me out again last night
He got me drunk and he got me in a fight
He was chasin' women, I was just there for the ride
Speak of the devil, he took me out again last night

You say I had my chance and I didn't change my ways
Well it ain't all my fault (no-
oh) but I still got hell to pay
Well it feels like judgement day

Chorus: 2x

Speak of the devil , he took me out again last night
He got me drunk and he got me in a fight
He was chasin' women, I was just there for the ride
Speak of the devil, he took me out again last night
