

## World Of One

Pissing Razors

I don't care to feel  
Stand myself up right  
Left it up to reach  
Now my need turns sick

[chorus]  
My world of one speak

How far down is down  
What I've found to take  
Dark years mold in shape  
Build death slow within  
Take my stance with pride  
Put this end to life
