

Bad Example

Pistol Annies

Somebody had to set a bad example
Teach all the prim and proper what not to do
Nobody around here wants to ramble
What the hell, that's what I was born to do

Those swanky big brick houses don't amuse me
I live in a trailer but I drive a Cadillac
I ain't never tried to impress nobody
With my "Honk if you're horny" sticker on the back

Somebody had to set a bad example
Teach all the prim and proper what not to do
Nobody around here wants to ramble
What the hell, that's what I was born to do

All of the girls that I grew up with went to college
Their rich daddies bought them a degree
But I'm a third generation bartender
Yeah, and I like livin' from a tip jar week to week

Somebody had to set a bad example
Teach all the prim and proper what not to do
Nobody around here wants to ramble
What the hell, that's what I was born to do

I said, what the hell, that's what I was born to do
