

## Bad Example

## Pistol Annies

Somebody had to set a bad example  
Teach all the prim and proper what not to do  
Nobody around here wants to ramble  
What the hell, that's what I was born to do

Those swanky big brick houses don't amuse me  
I live in a trailer but I drive a Cadillac  
I ain't never tried to impress nobody  
With my "Honk if you're horny" sticker on the back

Somebody had to set a bad example  
Teach all the prim and proper what not to do  
Nobody around here wants to ramble  
What the hell, that's what I was born to do

All of the girls that I grew up with went to college  
Their rich daddies bought them a degree  
But I'm a third generation bartender  
Yeah, and I like livin' from a tip jar week to week

Somebody had to set a bad example  
Teach all the prim and proper what not to do  
Nobody around here wants to ramble  
What the hell, that's what I was born to do

I said, what the hell, that's what I was born to do
