

Don't Talk About Him, Tina

Pistol Annies

Don't talk about him, Tina
Best thing he ever did was leave ya
You better pull yourself together
Tina, I swear you're better
Than just waiting around
On some rodeo man

You gotta get yourself up and dust them boots off
Ain't no use in staying sad or pissed off
You know how them cowboys are
They stay a while then they break your heart
So put your lipstick on
And let's go paint up this town
And when the boys come around

Don't talk about him, Tina
Best thing he ever did was leave ya
You better pull yourself together
Tina, I swear you're better
Than just waiting around
On some rodeo man

Hey bartender, my friend needs a double
Something strong to get her through her trouble
The boy down the bar just gave you a wink
I bet he'll buy you another drink
Before you know it, you'll be dancing his memory away
Just watch what you say

Don't talk about him, Tina
Best thing he ever did was leave ya
You better pull yourself together
Tina, I swear you're better
Than just waiting around
On some rodeo man
Alright!

There's no easy way to mend a heart
This oughta be a real good start
So smile real pretty cause here he comes
And don't you dare do anything dumb

Like talk about him, Tina
Best thing he ever did was leave ya
You better pull yourself together
Tina, I swear you're better
Than just waiting around
On some rodeo man

Don't just wait around
On some rodeo man
