Black Heart

Didn't see the plan cause your walking in self-restraint. Never ever thought you were a big disgrace Wonder why I hate the way I do? Imposters like you seldom see the truth.

My whole hearts bleeding black, so I must go to hate the way My whole hearts bleeding black, so I must go to find a way, My Black whole hearts in half, so I must go to get away My whole hearts bleeding black, so I must go to make a way

Finish what you started, ever heard of that before? They never talked of what you really saw Never thought that time would turn a fault But now your left alone with no where to go

My whole hearts bleeding black so I must go to hate the way My whole hearts bleeding black so I must go to find a way, My Black whole hearts in half so I must go to get away My whole hearts bleeding black so I must go to make a way

My whole hearts bleeding black so I must go to hate the way My whole hearts bleeding black so I must go to find a way, My Black whole hearts in half so I must go to get away My whole hearts bleeding black so I must go to make a way

My whole hearts bleeding black so I must go to hate the way My whole hearts bleeding black so I must go to find a way, My Black whole hearts in half so I must go to get away My whole hearts bleeding black so I must go to make a way
