Coming through, zero point two.
I want you to see this, so what if you do.

Daily release, it's hourly regression.
Zero point two, a standard obsession.

Draining time, it's down to you.
Strip back the feeling, I've seen it too.

Wasted lies, it's fever pitch.
Abuse confuser, I feel it hit.

Coming through, zero point two.
I want you to seal it, I want you through.

What have we got here? , coming through.
Pointless confusion, I point to you.

What have we got here? , still coming through.
Pointless confusion, I point to you.
