

Scene This

Pitchshifter

I bet you both, I bet you both, you make the most
I set the scene, I set the scene, I'll make you clean

You can waste your time this time
Yes, you can waste your time, not mine

Because I'm never letting go
You know there's nothing else to be
I can't give up for you this time
You know I gotta set the scene
I gotta set the scene

I set you straight, I set you straight, I take the bait
I set the scene, I set the scene, I'll make you clean

You can waste your time this time
Yes, you can waste your time, not mine

Because I'm never letting go
You know there's nothing else to be
I can't give up for you this time
You know I gotta set the scene

Because I'm never letting go
You know there's nothing else to be
I can't give up for you this time
You know I gotta set the scene
I gotta set the scene

I gotta set the scene, this
I gotta set the scene, this

You can waste your time this time
Yes, you can waste your time, not mine

Because I'm never letting go
You know there's nothing else to be
I can't give up for you this time
You know I gotta set the scene

Because I'm never letting go
You know there's nothing else to be
I can't give up for you this time
You know I gotta set the scene
I gotta set the scene
