

God awful waste of space, dumb degenerate low life
Mal adjusted freaks, mal adjusted freaks
God awful waste of space, dumb degenerate low life
Mal adjusted freaks, mal adjusted freaks

'Cause I want just one day for things to go my way
Low life de-generation, generation, generation
Got to know your place, dumb degenerate low life
Failure of the week, the failure of the week

God awful waste of space, dumb degenerate low life
Mal adjusted freaks, mal adjusted freaks
'Cause I want just one day for things to go my way
Low life de-generation, generation, generation

What you see is what you get
Then we have nothing to regret from
All the things I've seen, the things I've seen
And when there's nothing to regret
Our stupid lives we'll better yet
At least we'll all come clean, we'll all come clean

God awful waste of space, dumb degenerate low life
Mal adjusted freaks, mal adjusted freaks
'Cause I want just one day for things to go my way
There's nothing to regret, there's nothing to regret
'Cause I want just one day for things to go my way
Low-life de-generation, generation, generation
