

# Bang

Pixie Lott

Kiss me, you're gonna miss me  
'Cuz by tomorrow, it will all be gone  
Guns are shooting, people looting  
Sirens blaring, the world is done

Look deep into my eyes and say  
No matter what we will be safe  
Oh what the hell, I'm just gonna tell you I love you

Won't you lie with me  
As the world falls asleep  
In you arms I'm at peace  
The lights fade away  
On our last day  
At least we can say  
We went out with a bang, bang, bang

Year we're all gunners, just being honest  
Nowhere to run now, we're at the end  
Bring your lips closer, before it's over  
Give me a memory, to take to heaven

Look deep into my eyes and say  
No matter what we will be safe  
Oh what the hell, I'm just gonna tell you I love you

Won't you lie with me  
As the world falls asleep  
In you arms I'm at peace  
The lights fade away  
On our last day  
At least we can say  
We went out with a bang, bang, bang

It's the final hour  
And I'm so glad to spend it with you

Won't you lie with me  
As the world falls asleep  
In you arms I'm at peace  
The lights fade away  
On our last day  
At least we can say  
We went out with a bang, bang, bang [2x]
