

# Come Get It Now

Pixie Lott

Na, na, eh, eh, slow (come get it now)  
Ooooh (come get it now)  
Ooooh (come get it now)  
Ooooh (come get it)

I'm tired of watching you dance with your lazy two left feet  
Throw some junk in to it if you wanna keep up with me (come get it now)  
High speed on the dance floor, I'll get you into shape  
Boy you're looking like you want more, I'll push you till you break (come get it now)

Oh, you're moving too slow  
Tonight's all we got  
You're losing my attention, I'm letting you know  
Your moves are too slow, I say

Hey, hey, come get it now, no stroking no more walking  
I say hey, hey, come get it now, up your speed to get with me  
Get your sh\*t together, lets not muck about  
My glass is almost empty and the song is near played out (come get it now)  
Get in on the action, gotta put your rights to wrong  
Lets take it to the back and we'll go all night long (come get it now)

Oh, you're moving too slow  
Tonight's all we got  
You're losing my attention, I'm letting you know  
Your moves are too slow  
Come and get it, get down tonight  
Tonight is all we got  
Lets take it take it till the morning light  
Now once more round the block  
Come and get it, get down tonight  
Tonight is all we got  
Lets take it take it till the morning light  
Now once more round the block

Oh, you're moving too slow  
Tonight's all we got  
You're losing my attention, I'm letting you know  
Your moves are too slow
