

Perfect

Pixie Lott

Love your hair in the morning
Your sticky kiss without a warning
Don't go to work, stay in bed with me
We can lay, watch the TV
All day, being naughty
I fall asleep then I'll see you in my dreams

[Chorus]

As long as I breathe, I'm breathing for you
As long as I see, I'm looking for you
You don't even know, how much you deserve it
You make it worth it
You make it all perfect

In your eyes are the colours,
That you hide, I discovered
Little things that blow me away
I love your voice, makes me shiver
And the chills you deliver
I wanna see your face everyday

[Chorus]

As long as I breathe, I'm breathing for you
As long as I see, I'm looking for you
You don't even know how much you deserve it
You make it worth it
You make it all perfect

You make it worth it
You make it perfect
You make it worth it
You make it perfect
You make it worth it
You make it oh so perfect
You make it worth it
You make it

We can lay, watch the TV
All day, being naughty
I fall asleep then I'll see you in my dreams

[Chorus]

As long as I breathe, yeah, I'm breathing for you
As long as I see, I'm looking for you
You don't even know how much you deserve it
You make it worth it
You make it all perfect

Make everything perfect
Make everything perfect...
