

All Over the World

Pixies

With a pet at my side
God in the sky
snow falling down
freeze my body to the ground
I can't ride
but one more time
I will ride
all over the world

Washed over the side
top of the sky
slow diver down
two feet land on a different ground
you can't live easily
you can't even speak
but all of them speak
all over the world

I will meet you over there
I am going to meet you over there
washed over the side
top of the sky
slow diver down
two feet land on a different ground
you can't live easily
you can't even speak
fish all of them speak
all over the world

A plain with no herd
not even a bird
when one side is hot
the other side of the moon is not
it's just like a ride
maybe some time
they'll make it a ride
all over the world

I will meet you over there
I am going to meet you over there

Time is an arrangement
time is an arranger
I am a derangement

All my thoughts
all I am are my thoughts
all my thoughts
I am all what I'm taught

Better call the ranger
got a train derailments
better call the ranger

What I'm taught
all I am are my thoughts
all my thoughts

all I am are my thoughts
what I'm not
