

# All Over the World

Pixies

With a pet at my side  
God in the sky  
snow falling down  
freeze my body to the ground  
I can't ride  
but one more time  
I will ride  
all over the world

Washed over the side  
top of the sky  
slow diver down  
two feet land on a different ground  
you can't live easily  
you can't even speak  
but all of them speak  
all over the world

I will meet you over there  
I am going to meet you over there  
washed over the side  
top of the sky  
slow diver down  
two feet land on a different ground  
you can't live easily  
you can't even speak  
fish all of them speak  
all over the world

A plain with no herd  
not even a bird  
when one side is hot  
the other side of the moon is not  
it's just like a ride  
maybe some time  
they'll make it a ride  
all over the world

I will meet you over there  
I am going to meet you over there

Time is an arrangement  
time is an arranger  
I am a derangement

All my thoughts  
all I am are my thoughts  
all my thoughts  
I am all what I'm taught

Better call the ranger  
got a train derailments  
better call the ranger

What I'm taught  
all I am are my thoughts  
all my thoughts

all I am are my thoughts  
what I'm not
