

## Allison

Pixies

From distant star  
to this here bar  
the me, the you  
where are we now?  
horray the blues  
of everyone  
allison

Keeps a smile  
around a while  
he took no fright  
and jettisoned  
we'll go tonight  
to hear him tell  
"oh well"  
allison

And when the planet hit the sun  
I saw the face of allison
