

Blown Away

Pixies

Now the sun is burning
in deepest space
that's the way things are
through a storm I called you
it fell each day
I didn't get so far
my words get blown away

My lips are moving
if you touch my face
did you hear my scream?
while we were sleeping
I tried to say
even in my dreams
my words get blown away

Now the sun is burning
in deepest space
I didn't get so far
