

## Death Horizon

Pixies

This drink is tranquilizing  
Just look at us two  
Asleep at the beach at Waikiki

So I find it very surprising  
He's coming to you  
But I am thankful that he  
Helped me to see

You say he's not around  
Aw, would you please  
I've seen you looking down  
At me

Have you seen the death horizon  
Just there out of view  
Way low in the sky beyond the sea

And I can feel that the temperatures rising  
But what can ya do

Cause that death horizon  
Gonna pull you right through

You say hes not around  
Aw, would you please  
I've seen you looking down  
At me

Have you seen the death horizon  
Just there out of view  
Way low in the sky beyond the sea
