

## Down to the Well

Pixies

Betty always knows  
betty always tells  
she laughing desperately  
she said it felt like a river inside her bones  
when she went down to the well

Gonna be with her  
she is gonna take me there  
lead me by my hand  
her body a rocking chair for my soul

I can hardly wait, baby  
I can hardly wait  
'til we go down to the well  
down to the well

Been thinking to myself  
and if a life's not long  
what matter does it make  
if there'll be favorite songs playing in my head  
when we go down to the well

I can hardly wait, betty  
I can hardly wait  
'till we go down to the well  
down to the well
