Down to the Well

Betty always knows betty always tells she laughing desperately she said it felt like a river inside her bones when she went down to the well

Gonna be with her she is gonna take me there lead me by my hand her body a rocking chair for my soul

I can hardly wait, baby I can hardly wait 'til we go down to the well down to the well

Been thinking to myself and if a life's not long what matter does it make if there'll be favorite songs playing in my head when we go down to the well

I can hardly wait, betty I can hardly wait 'till we go down to the well down to the well

Pixies
