

# Might as Well Be Gone

Pixies

You're the chosen one,  
But I could use a change  
Even golden suns  
Find the end of their reign  
You might as well be gone,  
Yeah, you might as well be gone,  
That's my speech  
That's my song

On the street tonight  
But the bars are all closed  
We could meet tonight  
But you're only a ghost

You might as well be gone  
You might as well be gone  
Yeah, you might as well be gone  
That's my speech  
That's my song

You might as well be gone  
You might as well be gone  
You might as well be gone  
You might as well be gone  
That's my speech  
That's my song
