

## Baby Love Child

## Pizzicato Five

When I see you alone  
I see what's in your mind  
You love me yes you do  
You don't need to tell me  
I know you love me most  
No one else take my place  
You love me, yes you do  
Forever, and ever

When we kiss  
I see what's in your heart  
You love me yes you do  
You don't need to tell me  
I know you love me most  
No one else take my place  
Believe me, you do  
Forever, and ever

We are in love  
Baby love child  
I take you so high  
Groovy love child  
Give me a kiss  
Baby love child  
Do it again
