

Daddy

PJ Harvey

Daddy
Hold me
It seems so very dark tonight
And day

Daddy
I can't sleep
Need you to come and sing to me

That the stars
Up in the sky
Will shine down gently on the two of us tonight
And soon enough (Daddy)
It will be light (Baby)
We'll hold on tightly to each other, you and I
And I won't cry

Oh Daddy
Your baby
Is weak and calling out your name

My Daddy
Oh don't leave me
I beg you sing your song again

That the stars
Up in the sky
Will shine down gently on the two of us tonight
And soon enough (Daddy)
It will be light (Baby)
We'll hold on tightly to each other, you and I
And I won't cry (Baby)
Or call your name

And I won't
And I won't
And I won't
And I won't
