Kamikaze

How could that happen? How could that happen again? Where the fuck was I looking When all his horses came in? And he built a whole army Of kamikaze 10,000 willing Pilots flying Interfacing Space and beyond Built an army To come and find me Beyond all reason Beyond all my hopes The call of duty Another war zone (Makes me moan) Kamikaze - you can't touch me, kamikaze Eight miles high He walks his path And I follow mine One tooth for one eye He's come to find me 10,000 willing Pilots flying Interfacing Space and beyond Here is his army Interspace here we come Kamikaze-you don't touch me Space here we come

PJ Harvey
